## Security

---

With a deep history of developing secure, DoD rated government office and data center facilities, COPT is uniquely qualified to secure your digital assets.

### KEY SECURITY FEATURES:

- > DoD Anti-Terrorism/Force Protection (ATFP) compliant
- > K-12 fences and guarded entrances
- > 24/7/365 onsite security
- > Biometric access controls and man traps
- > Continuous video surveillance

## Reliability

---

- > TIA 942 Tier III Compliant design and operation
- > N+1 mechanical and electrical design for concurrent maintainability
- > Power – Dedicated 34.5kV connection
- > Critical Power – 19.25 MW backed up by generators
- > Fuel – 100,000 gallons of on-site storage for 72 hours of run time
- > HVAC – N+1 redundant HVAC with concurrently maintainable chilled water piping loops
- > Water – Dual 250,000 gallon ground water wells, eliminating the risk of a municipal water system failure

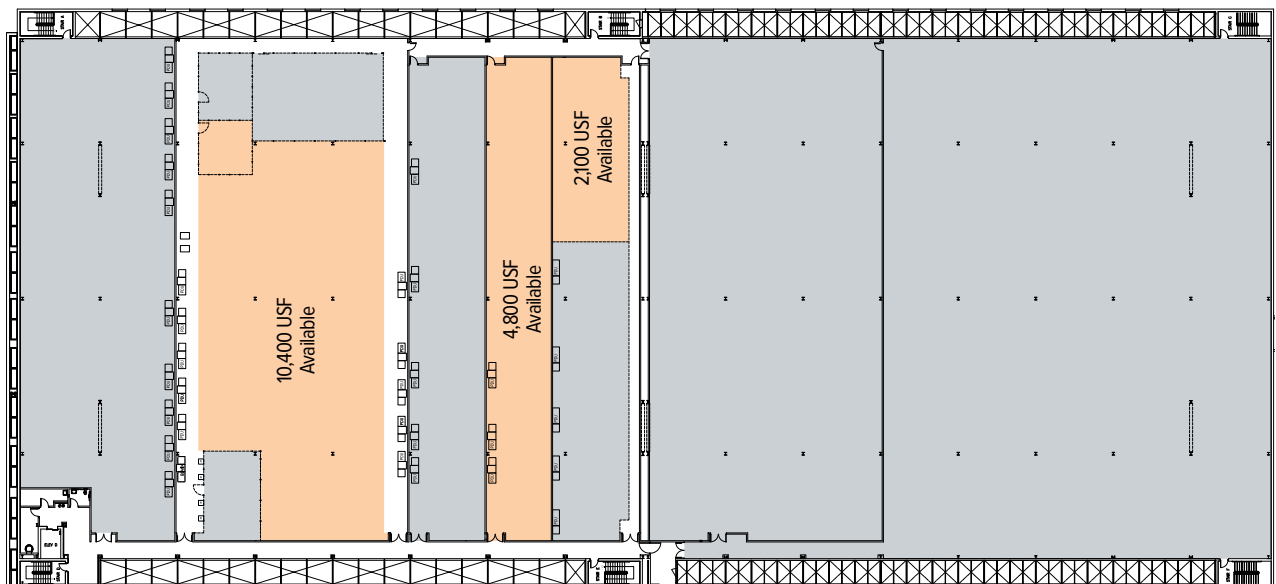

# Connectivity— Carrier Diversity + Redundancy

- > Diverse Fiber Conduit into property
- > 40G dedicated connections to main cloud peering platforms in Ashburn
- > 20 Carriers
- > Four Dark Fiber Providers

Atlantic Broadband	Comcast	Lumen	Summit IG
ATT	Fiberlight	LINX	Tata Communication
Blaze Broadboard	Fiberring	NOVECnet	TeliaSonera
